

## Product End of Sales (EOS) Notification

### End of Sale of all TLS-3xx, TLS-2 and TLS-50 Automatic Tank Gauge Systems

#### Product End of Sales (EOS) Notification

Veeder-Root is committed to providing the highest quality products and services to our customers. We view product End of Sales (EOS) as part of the natural cycle that drives technological evolution.

The Veeder-Root team is announcing the end of production of new systems and the sale of our 8470, TLS-350, 8482 TLS-350, 8485 TLS-300, 8560 TLS-2, and 8546 TLS-50 Series ATG systems. Each system has reached the point in its life cycle whereby manufacturing the product is not feasible due to obsolete components, the increased cost of older technologies & production techniques plus a higher cost of maintaining the product.

#### End of Sales Information

##### Europe

“End of Sales” notification was announced in July 2017. The TLS-350 console systems were available to purchase in Europe until July 2018 except for Spain where TLS-350 consoles were still available until November 2019. For other dates, regions, and consoles see the Global End of Sales table on the following page. See [Appendix I](#) for systems impacted by this notification

#### Product Transition Information

We recommend customers transition to the Veeder-Root TLS-4xx Series console for their tank monitoring needs. The TLS-4XX series offers superior connectivity and accessibility as the ultimate tank gauge solution. Note that Probes manufactured 2001 or later and installed with legacy TLS systems are fully compatible with new TLS-4XX consoles. Sensors currently installed with TLS-3XX are compatible with the TLS-4XX platform except for Pressurized Line Leak Detection (PLLD) sensors. PLLD sensors have been superseded by Digital Pressurized Line Leak Detection (DPLLD) sensors for the TLS-4XX platform. Contact your local Gilbarco Veeder-Root representative for more details and upgrade programs in your area.

#### Final Purchase Orders for complete systems

Gilbarco Veeder-Root offers a last time buy for each series system based on regional program needs.

#### Purchase Orders for spare parts

Gilbarco Veeder-Root will support spare parts for the TLS-3xx, TLS-2 and TLS-50 platforms for 5 years from the end of sale notification date or when parts are no longer available.

## Global End of Sales Schedule Information for TLS-3xx, TLS-2, TLS-50 Series Consoles

Platform	Details	Region	End of Sale Notification	Last Time Buy
TLS-300 Series Consoles	TLS-300, TLS-300i, TLS-300C	Global (Exception Europe)	2020-01-01	2020-12-30
		Europe	2017-07-01	2018-07-01
TLS-350 Series Consoles	TLS-350, TLS-350PLUS, TLS-350R	Global (Exception Europe, USA)	2020-01-01	2020-12-30
		Europe (Exception Spain)	2017-07-01	2018-07-01
		USA	2022-01-01	2022-12-30
		Spain	2017-01-07	2019-12-30
TLS-2 Series Consoles	TLS-2, TLS-2P, TLS-2N	Global (Exception Europe)	2020-01-01	2020-12-30
		Europe	2017-07-01	2018-07-01
TLS-50 Series Consoles	TLS-50, TLS-50C	Global (Exception Europe)	2020-01-01	2020-12-30
		Europe	2017-07-01	2018-07-01

**Note: Spare parts will be supported for 5 years globally or when parts can no longer be produced due to lack component inventory, whichever ever comes first.**

If you require further support on this subject, please contact me to discuss the latest solutions and products that can help address your fuel monitoring needs.

Sincerely,

Lee James Girard
